'Virtual Learning'
Expedition

EMERGING LEADERS - BUILD RELATIONSHIPS

Equip your Year 10-12 students with leadership & relationship building skills

Ever imagined yourself on a real Indiana Jones or Lara Croft adventure?

Become intrepid archaeologists for a day on this fun learning journey.

Students work in teams following clues across Peru and Bolivia to find the *Treasure of the Last Inca King*.

Encountering obstacles along the way, what will they choose and how will this impact their journey? During our 'Emerging Leaders' **one day virtual expedition**, your

students learn valuable leadership secrets, identify relationship pitfalls and ingredients that create relationship success.

Find out why Barker College, Cranbrook, The Scots College and Surf Life Saving NSW all choose the Inca Leadership Challenge for their Emerging Leaders.

This is a highly facilitated **virtual expedition** led by James Holden, creator of this adventure. James is a seasoned presenter with an elite ex-military and expedition background to help your students get the most from the experience.

Have James present at your school today by contacting Leadership Revolution.

Special Offer
\$1500 + GST

* Special Offer: Up to 30 students, Sydney Metro area only:
Schools outside metro contact us for offers.
